## NOTES ON CRITICS CONFERENCE (9/77)

[Transcript received 5/16 from AIB. 5 copies were sent out, evidently by the Committee, thanks to a sympathetic staff member. Sylvia has prepared a 4-page name index.]

\*\*

(9/17) P. 1+: nondisclosure agreement; one-way nature of metting.

P. 19-20: Baakey brings up "Oswald and orggnized crime" as one of the broad headings. [!!!]

Note: material submitted by critics is not part of this copy (follows p. 219 in original).

From the erasures, it looks like Blakey's part of this has been gone over for types - i.e., more than the rest. Of course, none of us have seen the transcript before, P. 28: KK's stuff is corrected too, so maybe I'm wrong, and Blakey didn't go over this either.

P. 68, linex 22: Hearing that a questionable lead turned up thru Garrison, Tink said "Thatks: that's enough."

P. 74.3; gake laughter in reference to Lane's expected at arrival 9/18.

In general: after the report comes out, it might bei interesting to see which areas that the HSC liked came up in the conference. E.g., p. 95, the training camp.

P. 105.6 - Rep. Thone speaks up.

P. 117.3 - laughter at the possibility that the tests of the SBT, which Tink had suggested, would prove the WC right (as Blakey wondered about). E.g., Tink specified NAA.

P. 118+: PLH on Itek, etc.

P. 120-1: Blakey Brings up melons; SM jokes.

P. 127 - PLH suggests talking to Griffin, other WC staff.

P. 129 - PLH on missing docs at Archives

P. 132 - jokes about MEF's recorded phone calls.

P. 137-8: Tink on poss. planting of KM CE 399

P. 141 - PDS on Walker Bullet

P. 139 - PLH on WC's methodological problems

P. 144 - B1 & Tink discuss the Life suit; B1 was surprised.

P. 150 - Bl. already interested in, would the WC have been different if they knew what the Church Com.. brought out.

P. 152-3: PLH on WC-agencies.p. 517+: mote.

P. 159-60: PLH on bad conspiracy theories (Epstein, etc.)

P. 164.12 (and exswere elsewhere): B1. concerned about how this repord will look. Eg p. 165.24. Says HSC won't bully witnesses.

P. 170.5 - Blakey anticipates verifying the SBT but not disestablishing conspiracy.

P. 171.14 - B1. on the problem with a big conspiracy.

P. 173-4.1, Tink on his experience as a private eye (disagreeing with PDS?)

P. 182: Tink - talk to everyone in the autopsy room.

P. 186-7: PLH on Dodd Comm. investigation.

P. 191.3 - PLH brings up CIA producing SS credentials.

P. 197-8: MEF, PLH on DPD tapes, SS copies, etc.

P. 202 - PLH on DPD knowledge of LHO; p. 204-5: Dallas lit. distr. CE.

P. 207-8: LH on Joe M. Smith - good lead.

P. 210.7: Blakgy's first "what if" - organized crime did it.

P. 211 - MEF brings up the (Gary Mack) acoustic analysis of the tape.

P. 212.23: PLH skeptical, can't tell why.

P. 213-4: Tink on issue of ultimate a access; El. says, 'everything comes out.' PLH generally sounds more incoherent than most. I don't think it was take that bad, actually.

Additional amusigg moments: pp. 91.11, 130.20, 146.22 (MEF), 178.9 (MEF infiltrating the Trade Mart), 195.2 (MEF.)

Amusing, difficult, or notable typos: 61.3: Hubert N. [&] Girffin.

62.3 room of = roomer? 107.12: Rutledge = Redlich? 124.11: ad feminem; 125.3:

Edward Arthur = Edgewood Arsenal; 148.18-9; The CIA = that I [!]; 158.13: cost + impostor 166.12: truth = proof; 177.1: for = from; 190.12: Arambo = a Rambler.

[Part II, 9/18] (States speculation, as discussed at end of part I)

PLH 5/18/79

18: Lane on Wm. Walter

25-6: PLH indicates doubts about ML, PDS theories.

Note: despite talk of later contacts (p. 196.15), nobody really contacted me later, and I wasn't able to talk to anyone in the week after the conference - I did try! During the session, I said lots of times that details could be gone into later, assuming that there would be such contacts.

Pp. 25-26, also 106 - my impression is that a lot of Tink's ideas on how to go after the physical evidence either were picked up, or happened to match Blakey's own.

P. 45 Blakey leaves, Jackie Hess takes the chair.

51-52: PLH-Lane disagreement.

53-4: Llarris on poss. substitution of shells by McDonald - good lead?

55-6: PLH on who LHO was actually working for - 'dembate' with Lane. (I sensed that he wanted x me to say something he could use yx against me later.) More on p. 62 XXXX 57-8: we all jump on Lane for his claim that something is confirmed.

60-1: Funny story from MEF, on how she 'infiltrated' the Quigleys' private schooml. 69: Ed Lopez asks about Sturgis. (Did he believe anything he shouldn't on that?) 87: Pat Orr asks PLH about Clay & Shaw.

88: Lane-Ferrell exchange.

92-3: argument

S

96: afternoon session begins

102: Sylvia as 'Gastro-did-it' as fallback cover story.

110: Tink on 'Mafia did it' as final fit fallback position

112:: PLH on who he thinks did it.

127: Tink obkects to PDS-type association analysis

128-9: Blakey on simplicity requirement for conspiracies

135-6: Lane gives his CIA-setting-up-LHO-by-faking-meeting-with-Kostikov theory.

Lane really bases dislikes Phillips, Priscilla.

139: Lame sarcastic to Blakey.

145: Blakey cuts off Lane (I think)

147: Lane's snotty reaction to Sylvia's crack about the McKeown story.

149: Kostman brings out that Lane is representing McKeown

152: Mary's theory of a fake attempt gone wrong.

154: Larry Harris et al on Sgt. Hill. Some good stuff.

159: Bl asks about the Castro-did-it hypothesis

179-80: Gary Shaw on a new witness, man and smoke on grassy knoll - Cabella's drive Sounds fairly good.

181-2: Kathy has a few critical words about the pre-Baakey hSC

183-190: Mary touches on a wide range of subjects

190: Lane goes into his speech

I guess you had to be there. The fact that they weren't giving out any info we was a real problem for us. Several of us preferred to have our books, we memos, etc. were carry the burden of our specific suggestions, evidence, etc. I guess about 50% of the transcript is Mary and Peter. There's very very& little from the HSC people. And the transcript is full we of typose, of course. N Good thing they are not publishing it!

I don't think we - especially me - were as inarticulate as the transcript indicates. Just for comparision, I reviewed the exectncine executive session transcripts for 3/11/77, which was accidentally released. They don't sound all that great either. (Interesting to see that Tanenbaum was talking about Marcello, Ferrie, Braden et al even back then - in addition to the babushka lady, and that kind of nonsense.)
