This is a twisted representation of what Paul Rothermel Jr, name obliterated, told the Dallas FBI. The Airtel bears Gemberling's initials.

What it reports, whether or not faithfully, did happen. The attached letter is the letter I did write Paul, although it had the top cut off in xeroxing. The chart is nutty enough to be the chart I did send Paul, but not saying it would be in the book. It was a special Garris on explanation of the conspiracy he visualized.

It was silly to obliterate Paul's name on the Airtel and not remove it on the letter I wrote him after the analyst bracketed it for removal. Or intended.

(On 2/3/78 I wrote Paul an unexcited, uncritical letter enclosing this Serial.)

This copy is not an original copy because there are holes for two different Acco bindings that are both visible. This suggests that a xerox was made of the record in one file for inclusion in another file but no other file is indicated.

The record bears indexing marks and a correction for the name of Bill Wood. Written in is Willis C. Wood.

All proper names are indicated for indexing, including other erroneous ones, like Rene Lamaree for Herve Lamarre.

Gemberling has "H.L.HUNT referred to is the wealthy, liberal-minded Dallas, Texan." Which says much about Gemberling?
