Ohio Unit Asks

Blood Be Labeled

National Organizer R. D. Elbridge, Ohio, and Thomas Ross of Middletown, Ohio, Chairman of the Ohio State Executive Committee of the NSRP, have drawn up a petition calling upon the Ohio State Government to require that all blood in blood banks be labeled according to race. The petition is being circulated throughout Ohio as we call upon all Party members and other loyal Whites to help in making the blood petition campaign a success.

There are significant differences between White and negro blood -- a fact which has been known (though suppressed) for generations. A substantial percentage of the negro population is afflicted with the so-called "sickle cell trait," a genetic or hereditary blood characteristic peculiar to the negro race. Whites do not inherit the sickle cell malady but when sickle cell contaminated blood is given to ailing White patients, severe damage can result. Despite these well known

New York Unit Reports

facts, the Jew-controlled politicians and the Red Cross prefer to endanger the lives of tens of thousands of sick and dying White patients by exposing them to contaminated African blood transfusions rather than concede that White and negro blood differ. In fact, the Red Cross refuses to even test negro blood for sickle cell trait for fear of the adverse propaganda such a procedure would attract.

Professor Scudder of Columbia University, upon preparing a letter, publicly stated that it was too dangerous for a person of one race to have blood of another race transfused into him. He even said that it wasn't safe for White blood to be transfused into negroes.

To correct this shameful practice, the State of Louisiana has already passed laws compelling the Red Cross, hospitals and other organizations to label all blood by the race of its donor. That is what the National States Rights Party is now petitioning the State of Ohio to do.

Party members in Ohio, in spite of the cold weather, are demonstrating against the Communist

Removal of Funds Leads to Amistion, Ala. Picketing

Leaflets and "Communist is Jewish" stickers were distributed in the cities of New York, Jersey, Rochester and Buffalo by individuals and local units. Members from the New York City unit also went up to Connecticut to distribute leaflets and put up stickers in the cities of Greenwich, New Haven, Bridgeport, Stamford, and Hartford.

All units consisting of three or more members can get all of the necessary literature simply by contacting the State Unit in Brooklyn. Any member desiring to organize a unit in their immediate area are urged to contact the State Unit. All it takes is three members to make a unit. All units will be assigned unit numbers. Lets go all out to show our sister states that we can expand as fast as they-- if not faster. We now have the membership strength, statewide, to do the job. N.Y. supporters should write N.S.R.P. of N. Y., GPO Box 1243, Brooklyn 1, N. Y.

Biracial Committee Attacks
