## THE CITY OF LIGHT

BY Godfrey K. (O)

The lights of the city  
Spin dazzling 'round our universe;  
Shadows lengthen,  
And the sun  
Becomes our moon -  
Hesitation for an eternal second.  
The golden fish swimming  
In a sea of light.  
And then - the dancer!  
Here our planet spins  
'Round our sun.  
How many deaths did we accomplish?  
Give not what you would take away.

## DEAR GOD

By Sue W. (D-1)

Please protect the ones I love;  
Send them blessings from above.  
If any of them should live in sin,  
Give them a chance, God, once again.  
I know that I, too, need righteousness,  
So I pray for you to bless me and send  
me happiness.

## PEACE

By Pat B. (C-1)

Peace is not a single word or a single  
define,  
Nor is it only love and life's fine line.  
'Tis an action of means with bridges anew -  
Not the spearman's warning of walls of rue.  
'Tis a bold heart with spirit that's true,  
And mercy that blesses with folds of two.  
'Tis love and respect with hands that warm;  
'Tis not just an army's coat of arms.  
'Tis a child's gleeful laugh;  
'Tis a new bride's smile from her better  
half.  
Peace is man's honor that's right;  
Peace is our country's flag with each star  
bold and bright.
