

JL - Please read immediately HW 6/11/78

I read McGreight's letter as soon as I got it and the attachments not long thereafter. None are of personal interest to me, not for my writing. However, they are exactly the kind of thing Schaffer asked of me. I therefore suspended working on the Admissions when I left to get the earlier 1997 affidavit notarized so I could do the checking reflected in the ~~attachment~~ ^{enclosed}. I recalled enough about that strange business for my attention to be drawn to it and because if I'd received any record that said there was a tape of Ray discussing payoff three months before King was killed I'd never forget it.

The time this required, not counting Lil's time or the making of copies or my writing you or the time earlier spent in my initial review of all the attachments to McC's letter is an hour and 48 minutes. I'm adding this to my records

It also occurs to me that this is relevant in your case

Believe me the page that I say seems to be identical is, even to the initialings. The copy provided to me is entirely unclassified.

There should be a phrase for someone other than a devil loving scripture. How I do love their scripture.

I do suggest that you send this to Civil along with what I gave you on Section 60 if you have not already done so.

I'll send Shea the copy in the form of an appeal myself.

Be aware that I was suggesting, in citing the 100 file numbers, that they are claiming b1 for operations against SCLC almost a year after King was killed. They are going to have trouble making an authentic claim for a legitimate national security investigation, as my letter to Shea will state.

I'll probably resume the Admissions after supper if it is not too hot in my office or if I do not spend the time walking. But I'll finish the rough drafts soon.
