Thanks for your 8/30 Watergate memo with quotation from Time (9/4/72, p. 19) on Andreas seated next to Mrs. Nixon at fund-raising dinner. Had already typed the attached snippet for you because I was curious about the date of the party. While the Time quotation doesn't give the date it does suggest the party came before Dahlberg named Andreas as the source of the \$25,000. If this is so, it might mean they didn't expect this would have to be told; if the party came later, it might be bravado.

In sending you clippings on the Watergate thing we try to eliminate repetitious stuff and anything based on Washington Post stories.
