

26 Sep 73

Have no clue to date Buzhardt made the statement in last paragraph of story of 23 Aug 73, which is the only reference to it I can remember having seen. If you happen to remember the occasion on which he made the statement, or the reason for it (without taking the time to look it up, please), I might work up enough determination to track it down.

As to the taping of the Mar 71 meeting, perhaps a recorder was brought in for the occasion?
