

There is more than has been treated in the papers in the CIA WG memos two of which were not released by Senate Appropriations subcommittee (NYTimes 6/4/73). One of the more interesting omission by Cushman is that he knew Hunt very well. The withheld memos deal with the former connections of the WG defendants with the CIA. Dean knew very early of other breakins by GL's burglars and disclosed this knowledge. Gray knew very early of the involvement of the top WH people and disclosed this to the President and to Cushman. This is in Cushman's 7/13 memo of his 7/12 mtg with Gray. GL knew all along and was lying. This was less than a month after WG. It is also clear that CIA helped Hunt after they claim to have broken off, to the end of 8/72. What is not clear, explained or addressed is why the WH avoided Helms. HW 6/11/73
