

Howard, if among those I asked you to get Who's Who listings I did not include Michael Douglas Caddy, I'd appreciate it if you add him to the list for when you do have time. I was reminded in a hasty skimming of Ervin exhibit that I'll have to compare with the testimony. It is some questions addressed in a memo to Colson. He is asked about two names in connection with Hunt, Caddy and a "Miss Hastings." I take it she may be the mysterious woman Hunt wanted spirited back from her Paris CIA post and loaned to him by CIA. I think that in the future you may wish you had these hearings, so ask your Senator for them quickly if you haven't, or you'll have to buy them....Letter from Dick today, for both. I'll forward when I answer, which will be as soon as I finish chapter I'm working on. HW 10/9/73
