

Edison Today 6/26/73 8:15 a.m. Newark + Stern,

heard morning speech. "one of most tragic scenes I have
ever seen - I'm exchanging money for paper. Keep all the things
did it to him "I'm sorry for what? For what John? (John did)"
(said they)

"I need a book" to his saying about democracy.

"I got a great impression for Howard Brown... who
was a public primary school" Edison also returned
with book

On "got working on the little plan" "got on on strike"
on "got working on the little plan" "got on on strike"
on "got working on the little plan" "got on on strike"

Keep it was only because they were "in disease" - trying to
"get a disease" only -

for "except" just then a matter of all contacts with plans

Wanted just if "except" to make self-sufficient
and "want" call on "without" commitments. Know nothing

about money - in self. to "letter" from about. Back in announced

for last half of last hour. We see said only "had remembered in our
to Mr. "study" "no sound" or beginning! What had to

On 11, which described me around.

When known by name since 1956. "He is an excellent paper
player". "It takes the President quite a while to take some-
one into his confidence". "The Pres. keeps his own counsel".
"I don't talk to the Pres about any thing... John Deen had
almost no contact with him".

(To this point no specific ref. to Holloman & Ehrlichman) perhaps
implicit of them and/or around the President.
C. did meet with Bergman early McNamara. Memo seems to have
been in April. Review of payments in late mid-60s. Seems for
defense only from what he has told.
Bergman's story: "It's unfair". EHR - Photos - on collecting
work. "I wish to be left alone to have it". No answer.
