

JL: After writing Bud the enclosed note on the Colson interviews I sat back to do a little reading. Howard sent me the Schorr piece in the 4/8/76 Rolling Stone. I'm hardly in it when he quotes Angleton as saying that Ober was Angleton's assistant in charge of all the domestic stuff. So, my interest in Ober is both confirmed and greater. Those memos, by the way, have Hunt working with Ober while a plumber... This aspect is shaping up a bit more all the time... Now ask yourself why the CIA would rather have me sue that comply.

Best, HW 4/7/76
