

2/12/73 Pm - Ark has the chance to "sneak" Marshall
in Geneva and has Marshall's visit, Shapiro, in -
Attaly - close to knocking - after 2:30. My be. Also not,
it is a shame, not Ark's own justice. The
man is Marshall's perjury. One of the touchstones is
Ark's reference to a telephone FBI interview that
Marshall attempted. S. D. P. would call for Ark to
have handled Marshall the report. I would have
asked him to read out of it as a meeting part
to her, presumably, Ark's attempted to make
Marshall see to Thompson, Thompson began with
a light remark & changed the subject (in it -
will not my attempt because Thompson had un-
knowingly prepared in secret a line of questioning
of his own.
