

"Custom an report" in 8/2/73 2:30 p.m. that about 6:15 p.m. as a Colonel he had been J-p. Nixon's military aide.
Hamilton? & James Commander. Murray 1/1/72 p. 150

3 yrs deputy director CIA - Deputy HHS/69 (Nixon appointee)
7/7/71 - Call from Establishment saying that Horowitz had been hired by WH on security matters & could be born & see me.
"Then shifts to 'Mr. Hunt' does not volunteer that they knew each other, not asked."

Because Hunt had no one else in the room, to be sure he didn't forget he taped, one of about 36 in 3 years. CIA provided "partial transcript" (ellipses?) Old boyism.
Hunt did want to be told he was taped

(White House knew of only from its help to think that it would be at least a little on the CIA)

Questioner familiar with transcript, accurate partial transcript. Hunt said he had to sign paper self for WH interview "of unknown ideology" so he would not be identifiable. "One time interview" speaks during interview sound security of odds & ends of papers do suffer. Why & speed-alteration device. Asked delivery at a safe house" so Hunt would not have to come back to the agency"

Helm's away. Thru after lowest through M. Govt. Wagner. He says only that Hunt "asked for the services of a stenographer" through Hunt chattering to save expenses.

Did not hear of other requests until Technical Services performed. Hunt got tape recorder, camera, brought in another man for when he "talked the TS people into giving an alias" and other false papers only known & not worked.

Hunt asked for NY address + NY phone service. (from!) Answering service very inexpensive - that is all Hunt asked. Also asked for + credit get credit cards - 8/31

1/8 + 1/10/73 memo "Contact with Mr. Hunt" prepared by Cash. for Ehr. Summarize "experiences with Mr. Hunt." 12/13/72

"Mr. Lobby came to see me - I was then the #1 man in CIA - and told me the agency had been directed" & summarize Hunt contacts by Justice - p. present now

2) If he had "dropped" a number of names on some message & he wanted to be sure which,

Colby told him "Mr. Elm described the incident" so he prepared memo from recollection. E. M. then called to read "look, I can't recall this phone call... my records show I was out of town" about then. To shake up more, he wrote the second memo. He has the memo by LHM - important not at CIA.

Feb. "had a thorough search made" and it showed the call had come from Elm. off to CIA oversight committee.

Call "over the WH line"

"request" parts of the transcript are blacked out "i.e., very, but passages marked."

"fine up" first copy memo. Elm did not ask him to do this. Supplied a copy "last night" because "he see who prohibit had returned her not at all."

Thompson? on missions "chat chat" perhaps.

Erwin? offered to Elm to "take his name out of it" because "I wouldn't recall" with certainty.

Baker? Begins by making a deal over tapes C. made (But he backs off fast enough) because he has personal objection, Baker is known enemy. He doesn't ask what was meant.

1960 front ^{B. Nichols} ^{Mass. drivers} ^{business} & DC. 1961 shares to Edw. J. Hamilton.

Until CIA got its back up, every thing "consistent" with Hume's initial request, no two in a view.

CIA has an opinion which "determines whether a not a hand had held a gun & fired it."

I know Hume says not well. "I think he recalls me "from when Nixon" can take be understood, he had me remembering what was going on" Hume did.
