any, on park. Not on saw. Chapman said he would get some "thugs" to "do the
job". GL found any demonstration intolerable & would be removed by any, in-
cluding illegal means. As late as 3/73 GL still wanted investigation to tie
anti-GL demonstrations to Dems.

being interviewed by prosecution asked to speak to Pittman, who
then "dismissed" the interview. It was in Pittman's office.
Gray later told him he had to "hang tight" but "not disclosed"
giving him the documents, which Gray said he had destroyed.

Story of company messages is confession of a conspiracy

Before his appearance, Stans wanted to avoid trial, as Stans had been per m...
Magruder told him Gilson & his staff had prepared for approval Lilly plan.
Lilly's statements, to 8/29 statement on "Dean investigation" on which he
had not been consulted in advance.
Early September DJ + FBI investigations began "winding down".
Hq. 9/10 Gilson's Democratic sent "our own counter-offensive" + "in our law
suits".

"Roger McFee" was having "private meetings with Judge Purdy" who
would be as helpful as he could. In Dem. civil suit. Gilson's "helpful".
Justice Dept had held off as long as was possible on indictments
Gilson didn't want any before elections.
Gilson told him to "keep a good list of Max in the press quarry
as possible" because he would "take care of them after the election".
Plan to "upline people who were not on our team" to replace
after the election. Hallmen already began making a list
with making of Patman hq. Included Stans + P members.
McFee Patman would "blunder into" what would effect "cover-up" Dean
discussed with Peterson, some times, + AG. When Gilson had consulted
all the world think of his campaign - low indications by Patman - Hallman
after indictment Peterson did indicate is. Patman hq. go P House
leadership directed go P members not to appear + to vote against.
Stans felt he would handle Elmer Stans as go.

Segretti matter as part of cover-up

FBI onto Segretti late June - contact with agent (Ed Warrant)
who "scared him". Segretti in D.C. as Dean told he said he told FBI
all about him + FBI had not pressed on other matters. Peterson, after
Jerry told of with involvement, saw to it this didn't come up + reported this fact
with Albert had covered up everything report quest was but grand jury would
asked on his own. Albert cover-up
10/10 first FBI look of Segretti matter. "Constitution on a lot press
room" They had Segretti go on Conn. Ehr. did. Segretti had in desert last before
Hallmen decided not go promptly when Gilson asked to see him personally,
several occasions, this time to hear what Dean had to say re Segretti
After this, Clasper resigned.
He interpreted (for Ehr. Hallman) fear to indict others as "deceit"
(Check to see if there was propaganda from or for left on this)
Stans who was not to have done it all Fielding what he was
doing when he picked up hush money.

my B at man to acty... the "transub" onto a "little" + played to Hallman & Ehrlichman. Mitchell. Presumably Hallman order "give the whole deposed bundle to Nixon" but to get receipt from LaRue, who would not give it (it was given later)

Frank Frank said he was fit... Ex. Clemency O'Brien told them "Hunt was off the reservation" wanted to plead guilty but with ex. clemency only. O'Brien said had to be set

absolved immediately. Wilson has refused to take any calls for from Hunt & Bittman. Wilson "extremely shaken" at 11/3 mtg with Ehr. & LaRue said "it was imperative" Hunt get clemency. It was promised. influence

"applied to all". Wilson disused with G. Green after Ehr. said not to. G.L. twice told Dean 3/10 & 4/10/73 that he had disused with LaRue & Ehr.

Campbell saw O'Brien the Dean the last "not cooperating with his lawyer" Mitchell others wanted Campbell to give the last the assurances of ex. clemency. Refer to "by reason of the wire tap" in ref to Mel's position

handle Mel's appeal. Ehr. O'Brien & Mitchell to promise Mel Bailey would personally call Ehr. told him he hoped that some money would be forthcoming for his lawyers

Ehr. request for retrieval of CIA materials relating to Lott, on that occasion.

Cushman changed memo to him with Ehr.'s name. Wilson present when Ehr. phoned Cushman. Peterson willing to purge files by returning to CIA & replace with ref. card. Ehr. not satisfied. CIA refused to go along because funds had asked that nothing be destroyed.

Lott plans for dealing with Evon Committee. Lott wanted Eastman to have help - G.L. supported Eastland against GOP in election when GOP, in fact, had a good chance of winning in Miss.

side B Big mtg 2/23 w/ Hallman's with sub. Sam Clemence. "The press has become more aware of the illeg. act activities at the W. H." he had the money (Powell) Ehr. & others "Gummy would help me w/ it" I would not have to be reached. Inoye pronounced "Gummy no way" by Ehr. G.L. kept similar ~~in~~ ~~same~~ opinions, esp. Gummy.

Dean & ...
I was worried ... 4/73.

Mary said that Hallerman had changed his story after checking with G
They got Hallerman off his ass to get Mary a job

Tape 5, side 4 - File with G, Dean told G L of Dean's oral ...
I did not tell the ... that I was not conducting an investigation

Max is off to his own book, the case on Truman -
on part 6/25/73 - ... Dean refers to Nixon's book, saying it was
a great step for Truman not to cooperate with Nixon's committee.

Beginning early March met directly with G L, who wanted Hill,
Ehr not involved. 3/13 G L said he did not want H & E before Egan

while Hallerman was in, Dean raised \$1,000,000 question. G L said
"no problem" & looking at H, said again "no problem" for, at least
little raise the million? Operate little refer to the security money

he had done for Elshelchman while he was at the West
after he had all the honorable discharge to G L G L showed no real
understanding of situation or concern for it. H & E held Ely here

withing for Mitchell to be the govt. Mitchell said Bailey "had been
very helpful in dealing with me in the ... Bailey had a client who
held lots of gold & wanted no problem with government.

This was 3/22/73 Gray called him & was before committee. O'Brien had copy
of memo letter "at just time front my into my office."

Dean had never had discussed 3/6/73 conversation with G L
though said he had received his instructions "right out of the book
of ... also though said he had prepared himself on letters (Prob. Ellsberg)

In his conversations with ... as he stayed away from G L until 4/1
ERLICH'S CODENAME - "WISDOM" End Tape 5

Tape 6A - Storex ... & Ehr talked about "pinning the ... matter on
Mitchell" & "getting Mitchell". This caused Dean to open up more with
prosecutors. He met with Laker, who expected to be called by grand jury.
Strategy was to get Mitchell to "come forward" when "had a plan" to
"smoke Mitchell out". The other thought of getting G L to get Mitchell to
"come forward"

Shaffer called him close 10 am Sunday to say he had heard from
prosecutors that they would have to "break" their agreement

Edm., who wanted to see him that night in office. Edm. didn't tell G.L. Edm. didn't want to see Edm. Did get to see G.L. 4/15. G.L. "visited" Edm. somewhat shaken. Edm. explained what he had done. Believed G.L. was trying conversation from G.L.'s manner. G.L. called Peterson today he was willing to see Libby's lawyer. As conversation continued he became more convinced that Edm. was falsifying a record. At end Nixon helped G.L. I said in Edm. room it had been a mistake for him to agree to see Edm. in Hunt. Saw G.L. again next day. Nixon had 2 letters for Edm. Signature. Then "amazed" Edm. Edm. refused. Both were confessions of almost anything.

Called to come again done 4 pm by G.L. Edm. gave him letter saying he, as did Hald John, asked for a leave of absence. But what G.L. wanted. 4/17 G.L. phoned to say he had decided against asking for any resignations until after grand jury. Edm. said he prepared not a suspect statement 4/19. Ran out of tape, ends 6A
