

Dean - 1 May 70  
Today NYT (apparently late edition only)  
While in justice, he asked on Teddy ("interesting info on Money To Rep."  
Denied knowledge Panamanian assassination (Hunt) story  
at justice, demonstrations expert - WH?

FBI (Did not testify to name of the un who wrote House schematics!)

FBI had info on all demonstration leaders - for "plans" file

Baker says intent to "structure your testimony" re Part of Plans

3 categories info: 1st hand; circumstances (opinion, inferences); hearsay

Limit scope of hearsay to what can be useful with other witnesses.

GL knowledge: broken - in advance? No. Only order to Strickland  
to destroy certain files immediately. If Halldeman knew, would  
assume GL did.

GL's personal knowledge cover-up: 1st hand 9/15/72. Should have earlier  
via Halldeman + from Ehr. to Halld. after Dean returned 6/19/72.

Ex 17 (Dean) show with remaining creeps.

Before 9/13 visit "Dean had not been in GL's office except  
on the handling of justificatory papers." For the first time  
one on one."
