

HW:

In our last mailing we sent you a clip from the EX for Sunday, 15 July, from Newsweek News Service (NNS) listing 55 files the Watergate Committee has asked from the White House.. Didn't notice before sending that about six lines up from the bottom of the first column it quotes the committee as specifying, along with ~~everything~~ everything else, that it wanted materials on the ~~breaking~~ break-in of Dr. Fielding's office and apartment in California. Blv this the first time we've heard the aptment was ~~broken~~ broken into as well as the office. This is a quote from Ervin's request.
