

"Watergate Explainable, Baker Says, WxPost 12/31/73 concluds with ref to NYTimes story on double agent working for US and his account of the Pent. Papers getting to the USSR Emb. I do not recall if you sent this to me but there is something familiar about it. I wrote about this not less than six months ago and then saw reason to wonder if the US had not seen to it that the PPs got to the USSR because they were coming out anyway. "t was after outing, I'm sure. If you did not send me this story, I'd appreciate it. If you did, can you give me any other clue so I can find what I did with it? (It is this bad here for I can't keep up with everything and I can't now remember enough.) If I am correct, then enough of this story is out for there to be no reason for not telling all and making GL and his gang look better. "e may be saving it but I think the greater likelihood is that it can kick back in his teeth, so he'd rather ~~restricting~~ to comming those so anxious to be deceived, like Baker, Ervin, etc. I'd not be surprised if Hunt pulled it.
