PAUL M. ROTHERMEL, JR.  
OF COUNSEL

Dear Harold,

12-12-73

I was much interested in your comments on Hirschkop - Sometime I must tell you the story behind the Judge's ruling on the suppressed evidence. However yesterday the Supreme Court ruled 6-3 on a case square with the Hunt matter. I have all the newspaper articles on the Hunt trial which I will get together and mail to you. I am associated with a new law firm

Re Norman Larsen - He came to Life Line in 1959 and left the Spring of 1965. He currently is manager of the Georgetown club. I believe Sen Park of Korea is one of the owners of said club. It is exclusive. Larsen was single when he came with Life Line - His job was sort of taken over by Joe Bussner. Larsen married after he went to work for H.L. A Wilson with two small children - He is very smart - Bends with the wind. The

step from H. H. D. General Park is very natural. I don't believe Larson is as far right as he makes out but it suits his pattern right now. He does have a weakness of sorts. He is overruled with himself and somewhat blinded by his own personality which is not strong enough for his present company.

While with L.S. there were no skeletons and I know of no derogatory info about him. He worked very closely with H.H. and John Cunningham. All of the anti Fortas and anti Douglas material was done by - 1. H.H. Hunt 2. Welch Wright 3. assorted short term writers and 4. Booth Mooney of Washington D.C. Booth was H.H.'s Washington man. You should look into this as he was the Division with Life Line and H.H. as long as Life Line was in Washington and before it moved to Dallas. Ron Patterson is now Director of L.S. a job Norman Bell H.H. is very feeble. Hope this helps -  
Bet regards  
Paul
