

Mullen/CIA

Dear Jim,

In the midst of my writing (p. 25 Mullen chapter) I find my 12/6/73 note in which I say that "In his prepared ~~testimony~~ statement Hunt said that at Mullen there were two who had CIA connections." I have read the typed statement, the printed hearings' version and listened to the ^{of the statement} tape, and it is not there. I am probably wrong. I probably confused this with Exhibit No. 142 (9H3850-1). But because it is so important is probably true is ~~not~~ an understatement, I write to ask if you recall anything like this.

If you would be interested in checking the exhibit, I think you will find that the first blanks on the second page can be references to Mullen. I have counted spaces and name variations. The second page also has the bottom part masked.

My writing today will be shortened by the coming of Bud and Jim soon and until or through supper. On Ray matters. But it is coming along. Thanks, best,

HW 6/6/74
