

I would suggest that the obviously fake anti-Park-fella campaign (Hunt/Long) of the past weekend indicate one of several possibilities &/or probabilities.

Hamilton ^{Long} knows a ton of Hunt and/or his files & intentions & not capabilities.

There was advance knowledge of the Park selection or analysis that picked him (that was against the odds?) If knowledge is the fact, someone is a spy close to Ford & of the far right.

In all of the the charge of obstructing justice was rushed.

Long made it all up
Hunt figured in the background, directly & indirectly.

Anyone who today really believes Park to be really "liberal" has a Hunt mentality, a mind captive of the past, one who does not think, prefers not to, is politically inflexible & unlearning.
