

Based on developments of the past week I think it is possible to distinguish between the Hunt & Liddy functions and to explain the repeated emphasis that Liddy was boss of the operations. Liddy was intelligence chief for the Creeps, Hunt for the WH. The WG job may well have been Liddy's idea. Not that Hunt isn't paranoid and stupid enough for it. Emphasizing Liddy's role tended to isolate the WH. Here the successful Ken Clawson lie becomes important. Remember he said Hunt wasn't working for the WH, rather was taken to have said this. This past week all commentators had both working for the Creeps. They went for all of it, from the first. Or, there were two systems, both probably small, both cooperating. With farfright belief, both were capable of anything. If it is all crazy to reasonable people, I don't think it was to them. I still believe that as they understand things, they were patriots. With Creep money involved and now so publicly involved in the WG part, the best is by that alone hidden and the whole things is accepted as Creeping, Liddy boss. HW 5/27/73
