

Wed 3/1/73  
Hunt got CIA stuff for EMR investigation, not Data Beard  
(used on both)

Today 7/17/73 with Bill Murray

CIA operation Mexico as usual - "spits to use the agency to cover up the scandal"

Ellsberg - improperly by CIA but not given for this purpose.

CIA used in Wg Wickham - ident questions - why on these  
+ picked up by authorities. Not disclosed? Not a good lead?  
Cover-up?

Why did Hunt need disguise? Hunt concerned  
it would be traced back to CIA. But this does not  
work "too well". One witness looked at Hunt practice &  
correctly identified it.

Mexico would permit domestic questions with Presidential  
approval.
