Ervin hrgs 7:3009-301! deal with Hunt's WH employment, safe, etc. Transcripts of Ehrlichman's chone conversations with Clawson and Colson. They were used to a degree at the hungin hearings and reported. Rereading them confirms a feeling I had at the outset, when I frist heard and read excerpts. If and when you get to this, I'd appreciate your evaluations, including was Clawson joking in some of his remarks. There is ambiguity and there will have to be interpretation...Norrush on response. Much as I'd like to be at that writing, I'm not. I do hope to begin working myself toward it today. HW 12/1/73
