

JW, JL- Beware! The machine gobbled up the first piece of scrap on which I copied "unt's brief response to my recent letter...I find his concluding graf particularly interest. I believe he may be seeing a shrink if he does not read the book about himself...I regard his comments about Szulc as evasive and indicative of possible knowledge he is not at liberty to disclose...How Szulc is to him other than part of the "anti-Communist side" is a mystery to me, unless he has a special meaning for anti-Communist. Something like anti-everything except fascist. ...I'll wait and see what happens before I go further. If his (Buckley's) lawyer respond with interest I'll be mildly surprised...I take this part of what he says to mean that he is doing nothing on his own and turning everything over. Or, under control and accepting it. I think it would have been normal to ask for more particulars and give them to his lawyer, whose hourly charge, to whomever pays, is high. ...Any comment? HW 2/8/74
