

Add Kessler; I told him I'd not been able to interest Bob or Carl in trying to find the hunt travel agency, if any. He said she appears to have travelled much. I had told the others how to locate it and what it could show if they'd talk. When K didn't ask for suggestions, from recollections of the past I made none, except the broad ones. He says that Hunt now has the money from her policy. He'll REALLY find jail hard when he is that loaded! I also asked K if he had checked to see if she carried other insurance and explained lower cost of annuals and other reasons for carrying. He appears not to have thought this through, merely to have seen Skolnick's stuff. He readily admitted that of what he knew, most made no sense. I added what he did not know, and that made less sense. So, Skolnick or someone with more scruple filtered what he got...I assume he is not doing this on his own. So, I assume the Post news depts are really going for the farout. One of the reasonable explanation of this is that they have what they consider reasonable cause. Or, they know something they haven't printed. Ordinarily, neither the Post nor Kessler would give a second look at that kind of stuff. Interestingly enough, when he talked of assassination and I suggested that Hunt would be suspicious, and didn't this mean having to get rid of him, he wondered if Hunt wanted to get rid of his wife. I didn't tell him the existing reason to believe this not impossible. HW 5/18/73
