

Ed, three interesting mailings came today, 2 of 1/26, 1 of 1/27. The business of the Hunt Chicago marriage license on the same day he got married is fascinating. Yes, according to my records, which come from him and hence can be suspect, it was 9/7/49, the same date you have. The age also fits perfectly, given as 21 years on the license and he was born 10/9/18. However, while I don't know where he was married, I see no reason for using Howard and an L instead of an E and unless he had an earlier marriage, Dorothy was not a Runge...I have a similar problem with the fascinating thing you sent on a Dorothy M Hunt with DJ as a lawyer. His wife's initial was, as you say, L. Maiden name Wetzel. Perhaps the inquest or death certificate when you see will clarify. Now the story you sent, returned herewith, is not consistent with others quoting the toxicologist. The others are explicit in saying that fatal doses of cyanide were in 9 of that crash's victims, hence I earlier asked if you knew of the distribution of the bodies with cyanide inside the plane, etc. I'll read the enclosed pages from Captive City (thanks) and the stats on Phone Phreaking from Parade 12/24/72 as soon as I can. Everything you asked be returned is already in the envelope except the Parade. Surprisingly, the state of the marriage license copied well. I now see that the return not the marriage was the 7th. Married wrong date, unless he lied, 3rd. This was also between his periods of spooking, after OSS and before CIA, so I see no reason for covering up... I think we'll be learning more about Howard now that he interprets it that the CIA removed his obligations to silence. I'll not be surprised if he was not in on the incredible mess in false red identifications in the Dominican crisis, where the US and its spooks wanted to get rid of a democratically-elected government, wanting a military one-and getting it. It is exactly the kind of thinking I'd expect of Hunt, which would color the fact for him. His concept of "patriotism" is already known. He could have done it and felt pure and just. And right, the end justifying the means. Thanks HW 1/29/73
