Might be best to determine position  
of Dorothy Hunt's body on plane  
from your end.

Why don't you have one of your  
newshound friends see if he can't  
get a chart of body positions  
(2, for that matter, so I can  
have one).

Enclosing 2 pc's so you can forward  
one to WA scrivener.

Best,
