I am a deep voice from ear to ear and even below up.  
Thompson interrupted because of his transcript when tape phone was  
not yet run off. Thompson wanted to see so Dask? & with in  
my ~~to~~ greeting from transcript.

Also interviewed by Ehrlichman  
Studied FBI reports on Ellsberg. SIA regularly got not only FBI  
report but from all other federal agencies on Ellsberg.  
Just saw of A. Lucien Lornein at Adams request. He was  
also CIA. They had trained in OSS together & were  
friends. in ~~the~~ 78th.

Sachs asks cameraman get just her away from Kurt  
called Lornein next day, 7/9 because some of tape would be  
too hard to reconstruct by phone, with Olson (Fred Charles)  
on extension. Olson uses alias Fred Charles

(not what if clandestine tape)  
Olson's purpose, Olson in UN for CIA since 1954  
"He has intimately familiar with the news leading up to  
the coup (Diem-Nhu)"

Quinn tries to cut off questions on Diem & Nhu & argues when he  
gets an answer that sets off a conviction. But he then gets  
in the act to ask what Dask would have done (I should at the  
outset) to put transcript in record. Thompson had interrupted  
at the outset. Dan Quinn comes back to say that they  
have had this "rehash" - "get to something new" or,  
cut it all off from the only first person source. Errom  
say "I think will make a little more speed if we  
would just question the witness."

So, the answer to Dask's question is not given

 hardly the whole story  
 when he started helping Liddy, Wilson knew that would

 Wilson knew of E's job & Hume's use of Cushman's  
 Liddy in Gemstone only.

How seems confused on ? of Olson's gemstone knowledge  
Did not feel any on, inc. Graves jury, of Olson's prior  
knowledge because in comes from "repeated questioning"  
by committee staff, which brought it "back to mind"  
Liddy 2/4 mtg with Hutchell, Liddy asked Hunt & introduced  
to Olson & I would have handled in new adm. because Hutchell  
knowing Olson-Liddy present on "gemstone" (I think I  
may have done as some good, "Liddy then said  
Hunt picked up point paid for espionage medals

He recruited Gregory to work under Muskie off.  
I still work. Switched Gregory to me g. Hy.  
Las Vegas apart from gemstone project. Bennett/ Hill  
Man of rumor in Vegas that "gemstone" had  
what would "blow Muskie out of the water"  
Liddy observed in deepest impression.

Bennett introduced him to head of security, - winter -  
for some Hughes more priv. This is critical about the 2  
Bennett indicated Hunt/Liddy - Hughes woman in contact  
of then Hunt & I were met in Hunt's office. We were office  
Las Vegas help - plus gemstone's offer, room conditions etc  
after business of safe. They were to then driving up what each  
wanted. Hunt's sudden test of my d. "droovy". Mean-  
while, Muskie's perfect power. I Plan was dropped

3) Mem. unrec'd: 15 ~~dated~~ Barker "to develop a network of informers" at hot ds, in Mem candidates. Or to get "puffs" to ~~be~~ out etc. "Whore outrageously to my des - red it upon the back of my G. supporters"

On 1/17 he was in Room 214. Took Mel's long case "Wank contained dirt in equip" & his W H safe. Called Caddy. Took \$10,000 from safe, given him as "out - and incoming money" by Liddy

Looked at cont seals like W H safe 6/19/72 also Lido: fake cables, gun stone. Transcripts uncorroborated in matter. Includes stuff from there. Heard old Mrs John Hall, whom's secretary. She had the "construction of my safe" He told her "I just want you to know my safe is loaded"

He met with Liddy 6/19 who said "They" would me to get out of town". Hunt did.

Met on B Jackson Rd heard party with whom he stayed LA. Liddy there 6/21, gave him \$1,000. Jackson later repud him to two attorneys. This is how he got Butman. Not asked how Jackson was

"an old friend"

"Action office" at CREEP Liddy said Mel can say he returned from Chicago 12/10 after 12th Wash. Not

What news ~~stated~~ said Funds \$26,000. From \$20,000 Mel Hunt gave Butman early 1/73 or late 12/72 B got envelope of his home for Hunt. \$15,000. Hunt gave \$12,000 to Cuban defense fund. Took the \$3,000 from D. Hunt had given from their own funds

5) TTT at a Bittman #156, no.

continue as go-between.

"Old Wilson" were really protesting the guys  
who are really responsible"

missed about 10 minutes at end session together  
one of 2 "CIA notes" had to do with change in  
"depending" + with his ~~activity~~ activity"

PM 9/24/73 If the a.m. session is any guess what  
should have been one of the more exciting sessions was  
dull, probably boring to most.

Baker tries to first Herms' & Sach's point in a lawyer-client  
privilege re Bittman to mean what Herms has said it  
does not, that he is waiving re Bittman so that he would  
question Bittman about Herms. Why Baker does this is not  
immediately apparent. The refusal to waive was explicit &  
repeated.

Weatherman says "I would not want this committee to  
engage in any activity" that would force Herms to  
surrender any rights. He says "no court or committee"  
has any right to do that Dick Purr says that because  
Herms is under a continuing procedure he is held by Dick  
that he is not being asked by the committee to waive any  
of his rights. Erwin adds it is involuntary testimony  
Weather re-emphasizes need to protect Herms' rights

Herms looks dull, but sees as thorough of his legal attorney  
to do with him, what a case this is going on

// 1/26. mtg with Paul O'Brien at Airport & Hanson just before  
start working. 2nd mtg with O'Brien. He asked for it.

To this point I have not asked for whom he was  
working & he has not volunteered. From W.G. Bar  
he did refer to "my white house office" - going to it  
from W.G. - getting my in in early a.m. hours - and  
not coming to it.

The old OIB he had "engaged in security" cut out is for the  
white house... loyal of not under his address  
cut out as "for W.H. Wavered equivalent 2 yrs  
income for his family"

Papers & promises of 6/21 - on "defending ourselves"  
OIB told Hunt to write Olson a "rough" letter.  
Olson declined to see Olson. Shapiro offered to. Met on a  
Tuesday, (11/15?)  
got \$75,000 on 3/20/73. Put in the box & paid Betman  
\$57,000 from wife's insurance policies.

Thompson? Hunt covers box on "use of executive power" to say  
it was delegated to Mitchell.

Says it was all gemstone plot on (wg) hence not W.H.  
Liddy source on some Olson money "from a govt agency"  
(Hunt thought FBI)

Plumbers' got daily reports" from all agencies, via. what went  
to Ehr. & Rugh.

On change of scene 6/17: would have as 5/27: He was in the  
change of entry & planned with Melod. Mel C. handled "his  
electronic bundles"

Liddy asked for Home demonstration on grounds govt agency had  
perpetrated "desecration" of Home's funeral. They were to guard the  
body!

0/ These nuts are "specialized among ourselves that some of them might come in!"

Reason to go ahead by Libby & Michael, over his objection ("Let's junk it"). He had engaged against for 3 days. Men told to leave identification in Room 214. They had CIA "Mark" identification.

Thomson spoke to Michael "about the time when Boddum started telling his story to the ~~NY~~ Times" about late July. Says he gave B other instructions, not to take to Michael's home.

First went to HJ & told B "to leave early" - "Michael's home?" "No, in where but there."

Michael said that Boddum went to keep "lead was rechecked" & left "abandoned."

Thompson says what Hunt had said, that he told Olson "you were, in effect, going to the committee to Re-Examine." Hunt did not meet, having a question that needed looking up to answer - on Olson's knowledge of gemstones, which Hunt had answered earlier.

"I was working on this with Libby as a 'wet lead' is his reflection of Olson's knowledge of the

Thompson reminds him that he had earlier dated this in Feb. Hunt says he realized as a result of quest coming he came to plan times better. Thompson's evidence, I think, if to present with, which claims that beginning in April Hunt was not working for W.H. This evidence (if superfluous) with a lot of

recess, about 10 minutes from end tape 4A. In going over it, Thompson expresses Hunt ("I'm hearing possible dis arm in it") Thompson reads from transcript of W.H. with out using paper, reads fast so they have to say they "can't follow"
