

9/30/73

Hal---

Have written for permission to give you names of two Chicago wiremen involved in Arizona caper.

It does not appear, with more information in hand, that ~~that~~ their endeavor, which was early spring of 1971, was connected with Greenspun safe attempt, at least that particular attempt. Am now informed their activities centered in Pheonix. Story is that Hunt came to them and said they had a job in Phoenix area for CIA and they had to set up some elaborate cover so their operation would not be suspect to those under ~~and~~ surveillance. Hunt told one of Chicrumb's that CIA was watching some Cubans in that area so the need for good cover.

Our boys acquired actual "script" for move from California, expensive camera equipment, camera operators, hired professional actors, whole works. ~~Everything~~ They occupied practically an entire motel during the job. Everything was done on credit cards. Some \$18,000 is still owing. Movie cameras were rented but motel held ~~them~~ them to secure money owed them. Airlines went after pair for what they owed on air transportation so there is a big credit trail.

Arizona job is said to have fallen apart because "there was a leak."

Will forward names if and when I get okay.

Best,
