

: Jim, After checking all the files I believed could be xx likely to hold them I have found more Szulc WC by-lined stories. You got all the Times issues except Sunday's. It may be important to know what other stories he wrote and when he was yanked. I have only the enclosed unless he handled the Rothblatt story I probably have in a file I didn't check and will now. Rugaber. I have it. He also was on it early. Well, with what I've put together on Szulc, which includes he was not retired after 20 years with Times, his wife's story to Ian's wife, confirmed at night, I have no doubt he was CIA, whether or not paid. He was the original Dept. Disinformer. I have found a Times Service unsigned of 7/3/72 saying Hunt was in Europe when he wasn't x two of Szulc's stock lines that are not exclusive but are provocative, "report from persons close to Hunt" and Hunt "spoke to the FBI three days after" the arrests, TS' original lie. No reason to believe Hunt was in Europe, if he wrote this could be important to add to that letter, which I'm now more than half through. (Juxtaposing with Buckley, done and I think both important in original covering up). Thanks. HW 5/31/74
