The Watergate Whitewash - it's official HW 9/19/71

Official in the indictment which a friend has obtained for me but I've not yet seen. It is 9 pages plus a DJ press release touting it as the reusly of the previously-described international, exhaustive investigation (accounting for the absence of international mention). It is being mailed to me. Please make requests for copies now if you want.

The same friend, a reporter, doesn't recall who told him that McCord's business had only one client.

Aside from what is not charged, was criminal and was committed, the indictment is designed to please the CIA and the FBI, which are unmentioned. With all but one of those charged formerly with the CIA, no such connection of any is mentioned. At least three such for the FBI, also unmentioned.

Hunt is described as only a friend of I think Liddy. Barker as a real estate man. No Bay of Pigs, of course, or Cuban groups. Of Hunt's aliases he is Everette Howard Hunt, also known as Howard Hunt. And E Warren. Not a single reference to his "literary" career, its aliases or the use of names from it by the other accused.

This is what I was told by phone. I suspect it is typical. Therefore, this is to let you know in the event you have interest.
