Mem to Huston, Erwin, Dean + est. 4/25/73

Not known written with approval of G.H.'s o.k. of Huston's plan & as late as 9/18/70 Dean was asked in writing to see what he would do to get it going faster

Classification violates Nixon's own new executive order on Classification.

18 USC 790 series defines defense info (798 is about but gives no such authority on domestic intelligence. Dean says perhaps title 50 on atomic energy but drops it as irrelevant.
