

Robert Bermitt

Hal...

Here are copies of all the materials we spoke of...

The session with the Hughes man went extremely well...

However he did swear me to secrecy re: his name...

Passing that, he did indicate that all of the allegations against DT were "correct"...that is, he had heard them all before but the company did not believe them...he defended their continuing employment of DT on the basis of his background and his personal ~~waxid~~ word of non-involvement (heavy Mormon thing)...bottom line was that he agreed to broach the poss. of an interview with DT within 48 hours or I would air...

He informed me too that a "disgruntled employee" has sold an article to Playboy that will say that HH is dead...

He indicated having been burned many times before by the news media, etc., but I do think I may have established a wary but trusting relationship...

Your help in the clutch as always was superb...I naturally will keep you abreast of things...

One thing I did achieve too today was an on the record interview with John Meier...he too believes that HH is dead...I'll try and get you a copy soonest...

Best regards, and thanks again,
