

An Ailing Nixon

Remains at Home

Post 9/16/74
SAN CLEMENTE, Calif.,
Sept. 15 (UPI)—Former
President Nixon, reported
to be fighting illness and
depression, remained iso-
lated in his oceanside villa
today after refusing to be
hospitalized.

There was no word from
his home here, but Dr.
Walter Tkach said in
Washington, D.C., Satur-
day after returning from a
visit to the Nixon home
that the former President
was suffering from a seri-
ous phlebitis condition in
his left leg. Mr. Nixon
continued to receive medi-
cation at his home and
was to be given weekly
medical examinations by
Dr. John Lundgren, a
Long Beach, Calif., physi-
cian.
