

Bearing on the theory I advanced earlier, that Tad Szulc may have been CIA and has continuing connections with its "liberal" wing is his long piece in the ed. section of today's WxPost, "The View From Langley" on Chile. It begins with citation of the transcript of Colby's appearance before a House Latin America committee. In explaining his use of the verbatim transcript, Szulc says, "The transcript ~~was~~ of the testimony was made available to this writer by a source in the intelligence community." Question: is that how he got the proofs of Hunt's Give Us This Day?... Superficially, this is an anti-CIA piece. However, I regard it as the kind that would be factionally sponsored, by "liberals" who oppose the policies of ~~Clay~~ Colby as well as the man himself. HW 10/21/73
