

JL- When you are again at the court building, would you please get me a copy of Haldeman's 6/20/72 memo on the White House meetings of that day? I asked Barry Sussman for this long ago, as you may remember, but he does not have it and has not gotten it. I expect it can add to what I already know about why all those tapes of that day have disappeared. It was introduced into evidence, so it should be available.

From what Rather did say night before last it is inevitable that he has been told more than hereported on Mullen and connections with more than CIA. HW 2/7/74
