

4/29/74 Nixon TV speech 9 p.m.

Still uses "wg" in terms of the article break-in only.
Says what is not relevant to this is out of transcripts
how about what bears on the knowledge of other crimes, and
of Part of this in these & wg + obstruction of justice in all
crimes of any kind
His objective to avoid consequences of impeachment

They are all to be made public
(Somebody has been busy editing tapes! and even meeting them!)
"The basic question ... is whether the Pros personally
acted improperly..."

"Neither of us ~~the~~ expected would ever see the light of day..."
He + Hallman both know being taped.
"Frankly speak highly suspicious to 'not see matters'.
Harris was involved in
Harris' trust "hot & wg problem"

Read what he says he know with care - not of wg before break-in,
etc. He does not include all possibilities
Trumping - not only House but appearance of "all the
Participants", men"

Are these all subpoenaed tapes? By every one?
His best open end to date spoke not as politician - more
like a lawyer
