# No Trouble On Tapes Timetable

SAN CLEMENTE, Calif. (AP) — White House sources said Friday that there would be no problem with the court timetable worked out for turnover of Watergate tapes. But they indicated President Nixon would not move to make this evidence immediately available to the House Judiciary Committee.

Deputy Press Secretary Gerald L. Warren said the White House was operating under instructions from Judge John Sirica's court to turn over 64 requested tapes and documents on a newly worked out timetable that calls for turnover of 20 Watergate conversations by next Tuesday.

The judge's order Friday to Nixon's defense lawyer, James D. St. Clair, was being sent by telecopier to the President at the Western White House where, Warren said, Nixon will review it.

"Then, we will proceed from there," Warren said.

The Supreme Court ordered the President to turn over the

tapes and documents subpoenaed by special prosecutor Leon Jaworski for use in a Watergate cover-up trial. They also had been subpoenaed by the House Judiciary Committee for its impeachment inquiry.

When asked if Nixon would turn over the evidence to the committee, Warren said the President was operating under instructions relating to the court case. He declined to answer specifically a direct question about the turnover, replying, "We think the committee should proceed with its work."

"The information suggested as possible evidence in a court matter" was being processed under the court order, he added.

President Nixon was described as feeling fine and his mood was said to be "confident" as the dramatic vote of the committee approached.

"What is he confident about?" a reporter asked.

"Everything," the presidential spokesman replied.

Warren repeated the White House position: "We believe the House will not vote out a bill of impeachment," a refer-

ence to the full House of Representatives that would act after a Judiciary Committee vote calling for impeachment.

The President was reported carrying on a regular schedule at the Western White House. He met for an hour with the West German foreign minister and Secretary of State Henry A. Kissinger.

There also was a session between Nixon and his budget director, Roy Ash, to review department and agency requests now under preparation for fiscal 1976.
