

Podell Urges Rockefeller To Call a Special Session

Representative Bertram L. Podell, Brooklyn Democrat, sent a telegram to Governor Rockefeller yesterday urging the appointment of a Moreland Act commissioner and calling for a special session of the Legislature to make changes in its penal system, which he said "for many years has operated in bankruptcy."

The telegram read, in part:

"Justice demands the immediate appointment of a Moreland Act Commissioner to conduct a complete investigation into the deaths at Attica prison."

The Moreland Act authorizes the setting up of special inquiries.
