# Ford to release CIA report

WASHINGTON — President Ford will release all of the Rockefeller Commission report on the CIA except its findings on alleged assassination plots, White House sources predicted yesterday.

The sources, who asked not to be identified, said Ford will formally announce his decision on the controversial report during a televised news conference tomorrow at 4:30 p.m. (PDT).

They said Ford was offended when Rockefeller Commission officials promised to release the report this weekend, feeling that decision was his to make. The White House on Friday countermanded the commis-

sion's promise, which provoked more confusion and controversy. Press secretary Ron Nessen, obviously irked by suggestions the White House had a coverup going, told reporters yesterday Ford would make the report public after he'd read it.

It is still unclear exactly when Ford will release the 350-page report on allegations that the CIA illegally spied on American citizens inside the United States.

Vice President Rockefeller, who chaired the presidential commission in its six-month investigation, said Friday night the report would disclose "serious defi-

ciencies" in the CIA's performance.

The sources said, however, the President has decided not to make public an 80-page summary the commission compiled on CIA plots to kill foreign leaders, including Cuba's Fidel Castro. Instead, the sources said, Ford will turn that summary over to a Senate Committee conducting its own CIA investigation. \*
