New Orleans, March 0 (AP)- Attorneys for Clay Shaw obtained a court order today permitting them to photograph the interior of David W. Ferrie's apartment -- the place where Dist Atty Jim Garrison says conspirators plotted to kill President Kennedy.

Shaw's attorneys told Criminal Dist. Judge Bernard J. Bagert that photographs were needed for preparations of their case for Tuesday's preliminary hearing for their client.

Shaw, 54, was arrested by the District Attorney March 1 and booked on a murder conspiracy charge. Garrison has alleged that Shaw, Ferrie, Lee Harvey Oswald and others -- including an unidentified "confidential informant" -- met in Ferrie's apartment in September 1963 and conspired to kill Kennedy.

Shaw, former managing director of the International Trade Mart here, termed the charge "fantastic" and said he never knew either Oswald or Ferrie.

Ferrie, a former airline pilot, was found dead Feb. 22 in his cluttered apartment, located near the garden district, one of the city's elegant residential areas. Death resulted from natural causes, the coroner ruled.

In a motion asking for permission to enter the apartment, the defense said Shaw was not acquainted with Ferrie and is totally unfamiliar with the residence's interior arrangement and structure.

The apartment has been sealed by the district attorney's office since Ferrie's death, the defense motion alleged.

Alvin Oser, an assistant district attorney, said Garrison's office had no objection to the defense motion. However, it was stipulated that representatives of the district attorney's office would be present when photographs are made.

In another motion, the defense asked for a special hearing Monday before Judge Bagert and the other two judges who will sit with him at Tuesday's hearing to present additional motions. The request was granted.

The three judges have issued a set of guidelines for the press covering Tuesday's preiminary hearing.

New Orleans, March 10 (AP)- A judicial curtain was lowered today over a phase of Dist Atty Jim Garrison's investigation of the Kennedy assassination.

A set of guidelines was issued for newsmen yesterday by the three criminal district judges who will preside at next Tuesday's preliminary hearing for Clay Shaw, a retired executive.

The 27-paragraph set of rules specified that witnesses, all lawyers in the case, law officers and many others in official and unofficial capacities "are forbidden from making any extrajudicial statements of any kind concerning this case from this date and until such time as this case is concluded."

A 10-paragraph preamble on court proceedings and freedom of the press ranged as far back as the Magna Carta, signed by King John in 1215 and as recent as a 5th U.S. Circuit Court of Appeals opinion of last Monday.

Dist. Judge Bernard J. Bagert, one of the three judges, has said that in his opinion the preliminary hearing will disclose the identity of the confidential informant mentioned by Garrison.

The district attorney ~~alleged~~ ^{application} ~~in an~~ ~~information~~ for a warrant to search Shaw's home that the informant told him that a plot to kill Kennedy was formed at a meeting here of Shaw, Lee Harvey Oswald, David W. Ferrie, and several others.

....

Ferrie, a pilot, died here Feb. 22.

The Orleans Parish Grand Jury, taking up the case for the first time, yesterday heard testimony from Dean Andrews Jr., who was consulted by Oswald several times in the summer of 1963, and Mrs. Josephine Hug, who worked for Shaw when he was managing director of the International Trade Mart.

Andrews, now an assistant district attorney in neighboring Jefferson Parish, was asked by the Warren Commission if he thought Oswald had killed Kennedy.

"I know good and well he did not," Andrews said. "This boy could

have connived the deal, but I think he is a patsy. Somebody else pulled the trigger."

Asst. Dist Atty James L. Alcock, asked if he felt any indictments in the case would be returned before next Tuesday's preliminary hearing, replied that he is "almost 100% per cent sure there will not be."
