Columbus -- Novel A168co add: investigation.

Novel again displayed for newsmen a "Louisiana Brigadier General's card" and insisted it was legitimate, even though aides of Louisiana Gov. John McKeithen have insisted the card cannot be legitimate.

"I was his chief investigator for a while," Novel said. "When he says I forged a card, he's a liar."

Newsmen who looked at the card said it was dated Aug. 10, 1965, and bore a signature in the name of John McKeithen.

Novel also said he manufactured surveillance equipment, but declined to say where he actually installed any of it.
