

Garrison Wants 'CIA-Suppressed' Photo

NEW ORLEANS — (UPI) — District Attorney Jim Garrison challenged the Central Intelligence agency yesterday to produce a picture of Lee Harvey Oswald which he said the CIA suppressed from the Warren Commission.

Garrison, who is conduct-

ing his own investigation of a supposed conspiracy to assassinate President Kennedy, said the CIA gave the Warren Commission a "fake photograph."

CIA LINK?

The New Orleans States-Item said Friday that Garrison was trying to show Os-

wald had definite connections with the CIA while he was in New Orleans in 1963 and may have been carrying on anti-Communist CIA work while he was outwardly demonstrating for the "Fair Play for Cuba Committee."

Garrison said the CIA was requested to give the com-

mission a picture it took of Oswald and a Cuban companion leaving the Cuban embassy at Mexico City in 1963.

NOT IDENTIFIED

"Instead, the CIA produced a picture of a balding, middle-aged man "who obviously

was neither Lee Harvey Oswald nor his companion," Garrison said.

The CIA, asked to comment on the States-Item story Friday, referred the newspaper to Warren Commission testimony in which the agency denied any connection with Oswald.
