

JFK Said Killed For Fighting Reds

President John F. Kennedy's strong anti-Communist stand in Cuba and elsewhere led to his assassination, the national chairman of the Conservative Society of America said today.

The chairman, Kent Courtney of New Orleans, told the Kiwanis Club of Kenner the Communists had several reasons to assassinate Kennedy. "While president, John F. Kennedy tried to stop Communist expansion in Cuba and in fact tried to take military action against Cuba on two occasions, but was thwarted in his plans by the United Nations," he said.

Courtney termed the first two years of the administration of President Lyndon B. Johnson "disastrous for the cause of Americanism."
