

Mike Cleary, KCBS, conducted an informal poll on his call-in program, asking listeners for their reaction to the following questions, the answers being registered automatically on two lines, one set aside for each question.\* The sense of the questions, repeated with slight variations, was:

	<u>Answer</u>
1) Do you agree with the Warren Commission's conclusion that Oswald alone assassinated JFK?	64
2) Does Garrison have a case? Do you believe there was a conspiracy?	221

\*Program was not heard from the start, and do not know length of time within which answers had to be called in.
