## CAMBODIAN CHIEF SUFFERS A STROKE

FEB 1 1 1971 Lon Nol Reported Paralyzed on Right Side - Debate on Successor Opens

N-Y-TIMES By United Press International

PNOMPENH, Cambodia, Feb. 10 - Premier Lon Nol suffered a stroke Monday that paralyzed half his body, reliable sources close to the Cambodian Government said today. An official statement said he had been ordered to stop all activities for medical reasons.

Premier Lon Nol. 58 years old, is a general in the army and also serves as Cambodia's Defense Minister in charge of operations against Communist invaders.

He came to power last March after the National Assembly ousted Prince Norodom Sihanouk as Chief of State, charging that he had allowed Communist forces to infiltrate Cambodia and set up bases along the South Vietnamese border.

## Right Side Is Paralyzed

There was immediate speculation as to who would step into Premier Lon Nol's position should his condition not improve, but no official announcement was made. The Cabinet will presumably act on his behalf under Vice Premier Sirik Matak while the Premier is under treatment.

The official statement said that Premier Lon Nol was un-

Since last March when the Indochina war spilled over into Cambodia, the Premier has been carrying an extremely heavy work load. The stroke was reported to have occurred Monday a short time after he had delivered a three-hour speech on the military situation to a committee of the National Assembly. The news was withheld until early this morning.

Nixon Sends Sympathy Special to The New York Times

WASHINGTON, Feb. 10-President Nixon sent a message of sympathy to the Cambodian Premier today, expressing hope that he would be able to resume his duties shortly.

This was made known by Secretary of State William P. Rogers, who told a news conference that in the Administration's judgment, Vice Premier Sirik Matak would probably continue the policies of Premier Lon Nol.
