Peking Sees Defeat for U.S.

HONG KONG, April 25 (UPI)—The situation in Indochina was described as a defeat of U.S. "plots, sabotage and interference" Thursday in a commentary by the New China News Agency.

"The heroic peoples of Cambodia, Vietnam and Laos have in the past five years advanced from victory to still greater victories," it said.

Their cooperation has defeated U.S. aims in Indochina, particularly the policies of "Khmerization, Vietnamization and Laotianization of the war," NCNA said.
