

No bullets in President Kennedy's body

Commander James J. Humes, testifying on autopsy:

"Commander Humes. ... X-rays were made of the entire body of the late President. ... No metallic fragments were detectable by X-ray examination."

II, 361

.....
"Mr. Specter. What did those X-rays disclose with respect to the possible presence of a missile in the President's body?"

"Commander Humes. They showed no evidence of a missile in the President's body at any point. ... "

II, 364

"Commander Humes. Before the arrival of Colonel Finck we had made X-rays of the head, neck and torso of the President, and the upper portions of his major extremities, or both his upper and lower extremities. At Colonel Finck's suggestion, we then completed the X-ray examination by X-raying the President's body in toto, and those X-rays are available."
