Check for earlier questioning by FBI.

Identification of photo by Marina

Secret Service report by Leo I. Gopadze, of interrogation of Marina, Nov. 26 to 28, 1963: - /Marina was shown photos of Oswald with rifle./ "After Marina Oswald examined the pictures it was pointed out to her Lee was holding a rifle containing the scope and she said honestly that she does not remember noticing the scope but that it was Lee's rifle and the same one which she had previously seen in their apartment in New Orleans. The fact that Lee had a revolver in a holster on his right side was pointed out to her but she said she did not notice the revolver while taking the picture as Lee was dressed in black and it would have been hard to see."

Number of photos?
Number of prints?

(FBI report? - no identification, no date.) "On February 27, 1964, Marina Oswald advised SAs Wallace R. Meitman and Anatole A. Boguslav that she had originally taken the photograph ... She stated she could only recall that she snapped the camera one time but she stated she must have snapped it twice because there were two different poses of Oswald with the rifle. She stated she believes Oswald developed the film and printed one copy each of the poses as far as she knows. ... Marina advised she burned these two photographs on November 23, 1963, at the Paine residence /on the advice of Marguerite/. She does not recall that there were other prints in existence. She stated however that there must have been other prints in existence because of subsequent happenings /sale of photo by James Martin to Life magazine/."

Gopadze, of interrogation of Marina, Nov. 26 to 28, 1963: "She said the reason Lee asked her to take the photographs was for the purpose of sending photographs to the Militant magazine to show that he was ready for anything. Marina Oswald said this was also probably for the purpose of showing that he was here and that he was ready to do anything even if it involves possible use of arms."
