

### Mrs. Kennedy Is Reported Planning Trip to Cambodia

WASHINGTON, March 6—(UPI)—Mrs. John F. Kennedy is contemplating a vacation trip to Cambodia and has secured a visa for that country with the help of French officials, according to The Washington Post.

A source close to Mrs. Kennedy says she is "vacillating" about a trip to Southeast Asia, the paper said. Among the factors being taken into consideration are the current tensions between the United States and Cambodia and the proximity of the Vietnam war.

It was understood that Mrs. Kennedy did not plan to visit Phnom Penh, the Cambodian capital, but instead is to fly to see the world famous jungle ruins of Angkor Wat.

April is considered the likeliest month for Mrs. Kennedy's Cambodian trip, the newspaper said.
